All product and price information is correct at the time of publication. However, details may change, so for the latest updates — including new products or specification changes — please visit www.sterlingsep.com, where you can download the newest version of this list, as well as brochures and manuals in our Support section. Significant updates will always be communicated directly.

While every effort has been made to ensure the accuracy of this document, errors may occasionally occur. STERLING Separation Ltd reserves the right to review and, if necessary, refuse orders if any incorrect information is identified. We accept no liability for costs arising from errors in this document, or from its misuse. If you are uncertain about any price or specification, please contact us directly for confirmation.

Prices are shown in GBP (£) and exclude VAT and carriage.

About Us

STERLING Separation Ltd is UK based leader in condensate management, delivering innovative oil/water separation, filtration, and condensate drainage solutions for industrial compressed air systems worldwide. Our reputation is built on three core pillars: uncompromising reliability, technical expertise, and a relentless commitment to customer support.

With decades of engineering experience, STERLING Separation combines proven performance with forward thinking product design, ensuring regulatory compliance and minimising operational costs for our customers. Every solution is backed by dedicated aftersales support and a deep understanding of the unique challenges facing OEMs, distributors, and end users in the compressed air industry.

We are proud to serve customers all over the globe, partnering with some of the world's most respected brands. Our mission is simple: to provide the most robust, cost effective, and easy to service condensate management products on the market.

350+

separators in stock, in over 40 configurations

600

service kits ready for same-day dispatch

3,000

in-line filter elements held at Cannock

Meet the **STERLING** Team

MA

Mike Amphlett DIRECTOR / OWNER

Mike has held senior industry positions since 1994 in the UK and abroad. He focuses on business development and the internal structures that allow STERLING to deliver consistently excellent service.

DW

Dennis Winder SALES DIRECTOR

An industry veteran recognised for his extensive practical knowledge in compressed air and condensate management. Dennis brings a wealth of experience that's freely shared to the direct benefit of our customers.

JG

John Gillen MANUFACTURING & QUALITY DIRECTOR

John oversees manufacturing and quality assurance across the STERLING range, ensuring every separator, drain and service kit that leaves Cannock meets the standard our customers expect.

AG

Andy Gillen OPERATIONS DIRECTOR

Andy directs day-to-day operations, from stock strategy through to dispatch. His focus is protecting the same-day dispatch promise that our distributor partners rely on.

DA

Dave Amphlett GROUP BRAND MANAGER

Dave leads brand and marketing across the STERLING group, keeping our message consistent on both sides of the Atlantic and making sure the technical detail our customers need is easy to find.

Meet the **STERLING** Team

SW

Stacey Wilkinson HEAD OF OPERATIONS

Stacey runs the operational engine room — order processing, stock control and logistics — making sure the right product reaches the right customer, on time, every time.

KC

Katie Clarke CUSTOMER SUCCESS LEAD

Katie is the first point of contact for many of our partners. She looks after accounts, enquiries and aftercare, ensuring every question gets a clear, prompt answer.

TK

Taylor Knight BUSINESS ADMINISTRATOR

Taylor keeps the administrative side of the business running — order processing, documentation and customer paperwork — making sure the detail is right before anything leaves Cannock.

DM

Demi Murphy BUSINESS ADMINISTRATOR

Demi supports the day-to-day running of the business — handling orders, enquiries and customer records — helping keep everything moving smoothly behind the scenes.

A New Chapter. More For You.

We've invested in our independence to deliver more of what matters most to you.

**INDEPENDENTLY
MANUFACTURED IN THE UK**

**LIFETIME
GUARANTEE**

ON ALL NEW STERLING
SEPARATORS*

Better Quality. Better Value.

We're focused on the long term — a stronger partnership and the best possible performance for your compressed air system.

95% NEXT-DAY DELIVERY

Huge UK stockholding means the parts you need ship the same day.

LIFETIME GUARANTEE

Complete confidence in every STERLING separator we build.

NEW-FOR-OLD REPLACEMENT

We'll swap your existing separator for a brand-new STERLING unit.*

LOWER LIFETIME COSTS

Lower-cost service kits cut long-term spend — but NEVER quality.

PREMIUM QUALITY

Key materials from ISO 14001 suppliers, assembled in our ISO 9001 facility.

UK STOCK. UK SUPPORT.

Real people and fast technical answers you can rely on.

INDEPENDENT & FOCUSED

Independence lets us invest in our products, our people and you.

SECTION 01 · NEW FOR 2026 / 27

PURE Line Oil Water Separators

Compact, serviceable separators covering compressors from 15 kW to 1100 kW — now named by system power rating, and available in blue, yellow or grey.

Introductory Pricing

Increased Capacity

Improved Media

Introducing the **PURE** Line

A new range of oil/water separators: the proven design you know, but with an average of **20% more capacity** across all sizes — along with a few of the things you've been asking for.

01

Upgraded manifold

Precision machined from anodised aluminium, with extra ports on top, where they should be.

02

Chamfered rim

A small feature that makes it quicker and easier to locate, open or close the lid.

03

Built-in stability

Integrated threaded fittings as standard, to ensure stability when installed on a shelf or stand. Our optional stand will follow.

04

Spring retainer shoulder

Get that spring retainer right, every time. A positive location takes the guesswork out of installation.

The PURE Line Series

Introducing **PURE Line** — the next generation of STERLING Oil Water Separators, now named by system power rating for easier selection. Engineered for uncompromising efficiency and reliability, PURE Line helps customers stay compliant with the latest environmental regulations. By blending proven principles with innovative features and robust quality, STERLING delivers solutions that not only meet but often exceed the demands of both customers and the wider market.

PL15

Updated CS75

Improved media

Physically compatible

The PL15 stands as the industry's most compact and cost effective serviceable oil/water separator, with a proven track record in thousands of installations. It's the ideal choice for compressors up to 15 kW, offering exceptional performance in a remarkably small footprint.

PL30 to PL480

Bigger & better

Improvements as standard

Our core PURE Line range is purpose-built for flexibility and ease of use in real-world conditions. Each model is designed for straightforward selection, installation, and maintenance, featuring clear time in service indication and adaptable configurations to maximise available space — even in the most constrained plant rooms. Six models cover compressors from 30 kW up to 480 kW, so there's a solution for every application.

PL550 & PL1100

For large scale and demanding environments, the PL550 and PL1100 set the benchmark for efficiency and service life. These IBC based separators harness the same advanced technology as our core range, providing an answer to high volume condensate challenges with up to 16,000 hours between services. Available in two sizes, they are the go to choice for installations from 550 kW to 1100 kW.

PURE Line Separator Specifications — models available in blue, yellow or grey, from stock, with other colours available to order

SECTION 03

Condensate Drains

Timer controlled, float operated, hybrid and zero-loss electronic drains —
a solution for every drain point.

First, Choose the Right Type of Drain

Take a look at the table below for at-a-glance benefits of each type.

TYPE	PURCHASE COST	RUNNING COST	EASE OF INSTALLATION	MAINTENANCE	SYSTEM ALARMS	COMMENTS
Timer controlled	Low	High	Very flexible	Low	None	Will waste a lot of compressed air
Float operated	Low / medium	Medium	Clean sites are best	Medium	Usually none	Not ideal on old or corroded plant
Hybrid	Medium	Low / medium	Very flexible	Low	None	A good, well balanced solution
Zero loss electronic	Relatively high	Low	Follow the book, it's important	Medium	From simple to comprehensive	Long term cost saver when installed correctly and serviced regularly

Timer Controlled Drains

Simple, dependable timed drains with integrated ball valve strainer (BVS) options, in a range of voltages and pressures up to 80 bar.

PART CODE	DESCRIPTION	PRESSURE	INTERVAL	OPEN TIME	£	£ 10+ (EA)
TD15A_220V_1/2BSP	Timed drain, integrated BVS — 1/2" BSP — 220 VAC (CS720 equiv)	0–16 bar	0.5–45 min	0.5–10 sec	£49	£46

Float & Hybrid Drains

CS402

Float drain for use on a drip leg etc. Features a polycarbonate bowl protected by an aluminium housing.

CS20B

Mechanical float drain for general use including receivers and distributed sites where there is no power. Heavy duty body and rugged internals.

Float Controlled Autodrain

PART CODE	DESCRIPTION	PRESSURE	CAPACITY	£
CS402	CS 402 — 1/2" mechanical float drain	0–16 bar	< 400 CFM (< 12 m ³ /min)	£49
CS20B	CS 20B — 1/2" heavy duty float drain	0–16 bar	< 4000 CFM (< 120 m ³ /min)	£99

Hybrid Autodrain (timer + liquid sensor)

This drain operates on a fixed interval, but its integrated condensate sensor automatically adjusts the open time based on the actual moisture present. This intelligent control minimises compressed air loss during operation while ensuring simple, reliable installation — eliminating the risk of air-lock. For added flexibility, the unit can be installed in multiple orientations. Suitable for applications up to 2000 CFM (60 m³/min).

AD950T

PART CODE	DESCRIPTION	PRESSURE	INTERVAL	£	£ 5+ (EA)
AD950T230	AD 950 T intelligent timed drain — 230 VAC — 3/8" BSP & 3/8" hose	0–80 bar	Fixed	£187	£175

EMD 12, 25, 75 & 150

The STERLING EMD is a high-performance electronic zero-loss condensate drain, engineered for maximum reliability and minimal operating costs. Its modular design features an accessible strainer that can be cleaned without removing the unit, while the cost-effective service module is quick and easy to replace.

The EMD***A model includes an integrated power connection for remote alarm monitoring. For installation flexibility, EMD drains can be mounted vertically (ideal for standard use beneath air receivers) or horizontally (as shown) to simplify integration with filters and other equipment. In applications where condensate carries substantial debris, vertical installation is recommended for optimal performance.

MODEL	CAPACITY (RECEIVER)	CAPACITY (FILTER)	CAPACITY (DRYER)	MAX DRAINAGE (AT 7 BAR)
EMD12	310 CFM (8.8 m ³ /min)	620 CFM (18.5 m ³ /min)	3100 CFM (93 m ³ /min)	12 l/hr
EMD25	650 CFM (18.2 m ³ /min)	1300 CFM (36.4 m ³ /min)	6500 CFM (193 m ³ /min)	25 l/hr
EMD75	1940 CFM (55 m ³ /min)	3800 CFM (110 m ³ /min)	19400 CFM (580 m ³ /min)	75 l/hr
EMD150	3880 CFM (110 m ³ /min)	7760 CFM (220 m ³ /min)	38800 CFM (1160 m ³ /min)	150 l/hr

ZL1300 & ZL5000

STERLING ZL1300 and ZL5000 are precision-engineered electronic zero-loss condensate drains, delivering exceptional reliability and industry-leading performance for demanding applications. Designed for capacities up to 1300 CFM (37 m³/min) and 5000 CFM (140 m³/min) respectively, both models ensure long service life and remarkably low operating costs.

Standard features include an integrated strainer, local alarm, override test button, and optional remote alarm contacts, all housed within an IP65-rated enclosure. With rapid payback through reduced compressed air loss, the ZL1300 and ZL5000 set the benchmark for quality and efficiency in condensate management.

ZL1300

ZL5000

Air operated diaphragm valve for high flow and reliability.

MZL1000 — Extra Heavy Duty Mechanical Float Drain

The STERLING MZL1000 is an extra heavy-duty mechanical float drain engineered for high-performance condensate removal in demanding compressed air systems. Designed for systems up to 1000 CFM (28 m³/min), the MZL1000 delivers reliable, maintenance-friendly operation across a wide pressure range (0–16 bar).

KEY FEATURES

- ✓ Dual 20 mm inlets and 8 mm outlet with supplied push-fit hose adaptor.
- ✓ Supplied complete with in-line strainer, isolating valve, connecting union, and extension pipe.
- ✓ Packaged as a ready-to-install solution — everything needed is included in the box.
- ✓ Suitable for a wide range of industrial applications.

The MZL1000 represents a truly comprehensive solution, streamlining installation and ensuring reliable operation from day one.

PART CODE	DESCRIPTION	WORKING PRESSURE	CAPACITY	£ EACH	£ 5+ (EA)
MZL1000	Automatic drain valve	0–16 bar	1000 CFM / 28 m ³ /min	£135	£120

SECTION 04

STERLING Premium & Original Filter Housings & Elements

Compressed air filtration from 35 to 1640 CFM — supported with rapid supply, technical guidance and full aftersales support.

Supporting Legacy and Innovation

STERLING's original filter range has long been a market leader, and we understand that switching from established systems can be challenging. That's why we continue to fully support our legacy product lines with in-stock housings and elements, ensuring ongoing value for existing customers.

Both our Premium and Original filter ranges deliver exceptional value and are supported with rapid supply, technical guidance, and full aftersales support.

Why Choose STERLING Premium Ranges

- ✓ **Easy 'click-to-lock' assembly** for straightforward installation and maintenance.
- ✓ **Colour-coded elements** for quick and accurate identification.
- ✓ **Double 'O' ring element seals** to ensure leak-free performance.
- ✓ **Supplied with differential pressure gauge** as standard.
- ✓ **Durable, plastic-coated exterior finish** for long service life.
- ✓ **Competitive pricing** across the range.
- ✓ **Push-fit drain connections** included for convenience.

Flow Rate Correction Factors

PRESSURE (BAR)	PRESSURE (PSI)	CORRECTION FACTOR
2	29	0.38
3	44	0.52
4	58	0.63
5	72	0.79
6	87	0.88
7	100	1
8	115	1.13
9	130	1.26
10	145	1.38
11	160	1.52
12	174	1.65
13	189	1.76
14	203	1.87
15	218	2
16	232	2.14

Rated flows are at 7 bar (100 psi). Multiply the housing's rated flow by the correction factor for your operating pressure to find the true capacity.

Filter options & spares: float drains to suit these housings are on page 41; replacement elements are on pages 38–39.

Cyclone Separators

STERLING cyclone separators remove bulk liquid and coarse particulate ahead of fine filtration, protecting downstream equipment. Each unit is supplied complete with element and drain.

Cyclone Separators (c/w element and drain)

SECTION 05

Alternative Elements for OEM & Branded Filters

These are high quality alternative elements built with attention to the same international standards as the originals. We list below our most requested filter lines. Please note that many manufacturers' products will fit multiple different housing brands — so if you can't find what you need please contact us, we can probably find it for you.

- ABAC — 43
- Air Filter Engineering — 43
- Alup — 44
- Atlas Copco — 44–46
- Beko — 46
- Boge — 46–47
- Compair Broomwade — 47
- Compair Hydrovane — 47
- Compair — 48
- Champion — 49
- CP — 49
- Donaldson — 50
- Domnick Hunter — 50
- Friulair — 51
- Gardner Denver — 51
- Hankison — 52

- Hi Line Industries — 52
- Hiross — 53
- HPC — 53
- Ingersoll Rand — 54–55
- Kaeser Filters — 55
- Mark / Ceccato — 56
- MTA — 56
- OMI — 56–57
- Omega — 57
- Puska — 57
- Pneumatech — 57–58
- Sullair — 58
- Ultrafilter / Donaldson — 59
- Walker Filtration — 59–60
- Worthington — 60
- Zander — 61

Please note that brand names in use on this price list are for identification purposes only, and do not indicate that STERLING Separation Ltd supplies elements either manufactured by, or sold by those companies or brands whose names are used.

SECTION 06

Refrigerated Air Dryers

RD25 – RD1000 · 25 to 1000 sCFM / 0.65 to 26.8 m³/min (12 sizes).

Effective, efficient & economical — quality without compromise.

General Characteristics

- ✓ Complies with all relevant industry and national standards
- ✓ Designed for high efficiency and easy maintenance
- ✓ Dewpoint range down to 2 °C
- ✓ Rugged powder-coated exterior finish
- ✓ Great accessibility for easy maintenance
- ✓ All popular sizes held in stock for immediate delivery

3-in-1 aluminium plate fin type heat exchanger

>5 times transfer area compared to shell/tube type · Efficient and rapid heat transfer · Compact size · Long life guaranteed

World-standard refrigeration system

Component brands include Danfoss & Panasonic (model dependent) · Rugged and fully enclosed · Low noise & vibration at unobtrusive levels · Using environmentally friendly R410a, R134a & R407c refrigerants (model dependent)

Full feature control system

High- and low-pressure protection on refrigerant circuit · Over current, over- & under-voltage protection · Phase loss and compressor reverse protection · Optional remote operation support via MODBUS

Specifications & Selection

Compressed Air Filtration Option — PREMIUM

AirDry refrigerated dryers can be supplied either with or without STERLING's PREMIUM line filters. Select the (F) option, and we'll supply our PREMIUM filters, complete with quality float drain and differential pressure gauge, with the dryer. For details of these hi-spec filters, please go to www.sterlingsep.com/premium-filtration to see the video or download brochures.

Laboratory Work & Training

Condensate Testing

STERLING operates a dedicated laboratory equipped with advanced instrumentation capable of detecting oil concentrations in water down to ± 1 part per million.

To conduct a test — whether for routine installation checks or as part of a pre-quote assessment — we require a representative sample of at least 500 ml of condensate, along with basic installation details where relevant. Please contact our sales team for further guidance.

Testing is offered at a flat rate of £50, which includes a detailed printed report.

Important: This service is provided for general customer support. While all tests are conducted and reported with professional care, STERLING is not a certified laboratory. If the results are intended for legal, regulatory, or official compliance purposes, you must obtain independent, accredited analysis elsewhere.

Training

With decades of hands-on experience in condensate management, the STERLING team delivers practical, real-world training tailored to your needs.

We provide courses covering both general condensate management and in-depth product-specific knowledge. A typical session, focused on key operational principles and best practices, lasts between 2–3 hours. Training is available on-site by appointment, for individuals or groups (sales, technical, or service teams). Content and delivery are customised to your requirements.

All training is provided free of charge.

Terms & Conditions

1. Application and Entire Agreement

These Terms and Conditions apply to all purchases of goods ("Goods") from STERLING Separation Ltd, registered in England and Wales (No. 05844056), registered office: 24 Longford Industrial Estate, Longford Road, Bridgtown, Cannock, WS11 0DG ("we", "us", "Supplier"). Acceptance of these Terms occurs when you accept our quotation, place an order, or accept delivery of the Goods — whichever is earliest. These Terms and any quotation constitute the entire agreement and override any other terms. No terms proposed by the Buyer override these Terms, unless expressly agreed in writing.

2. Interpretation

"Business day" means any day except Saturday, Sunday, or bank holidays in England and Wales. Section headings are for convenience only and do not affect interpretation. Singular includes plural and vice versa.

3. Goods

Goods are described in our sales documents, unless expressly changed in writing. You acknowledge you have not relied on any other statement or representation. We reserve the right to amend the Goods' specification to comply with legal or regulatory requirements.

4. Price & Payment

The price is set out in our current quotation or price list, or as otherwise agreed in writing. We may adjust prices due to factors beyond our control, with a minimum 30 days' notice. All increases will be communicated in advance. Discounts are at our discretion and must be confirmed in writing. Prices exclude packaging, transport, VAT, and any other taxes or charges, unless specified. Payment is due by the last calendar day of the month following invoice date, unless otherwise agreed in writing. Late payment may result in suspension of deliveries and interest charged at 5% above the Bank of England base rate. Payment is to be made in GBP unless otherwise agreed. All sums are payable without deduction, set-off, or withholding except as required by law.

5. Orders, Cancellation, and Alteration

Order details may change without notice. No offer to sell exists until expressly accepted. Quotations are valid for 30 days unless withdrawn earlier or extended in writing. Orders may be cancelled by either party prior to acceptance. Items made to order may incur a cancellation charge if production has started.

6. Delivery

Delivery is to the address stated in the quotation or as otherwise agreed. If no address is given, collection is required. Unless otherwise agreed, delivery can occur at any time between 8am–5pm. Failure to accept delivery may result in storage or redelivery charges and, after 10 business days, resale of Goods with you liable for any loss. All delivery dates are estimates and time is not of the essence. We are not liable for delays due to circumstances beyond our control. Goods may be delivered in instalments. Each instalment forms a separate contract.

7. Inspection and Acceptance of Goods

You must inspect Goods on delivery or collection. Any damages or shortages must be reported in writing within 48 hours of delivery. Returns will only be accepted for defective Goods and, if necessary, after inspection. Subject to compliance, we will repair, replace, or refund at our discretion. We accept no further liability for Goods if: you fail to notify us as required; Goods are used after such notice; defects arise from failure to follow instructions, normal wear and tear, misuse, alteration, negligence, or damage by you, your agents, or third parties. You bear the risk and cost of returning Goods. Acceptance is deemed on inspection or within five days after delivery, whichever is sooner.

Terms & Conditions (cont'd)

8. Risk and Title

Risk passes to you upon completion of delivery. Title passes only when full payment is received for all Goods and services supplied to you. Until title passes, you must: hold Goods on a fiduciary basis as our bailee; store Goods separately, keeping all identification intact; keep Goods in satisfactory condition, insured for their full value. We reserve the right to recover Goods at any time before title passes if payment is outstanding.

9. Termination

We may terminate any sale if: you breach these Terms materially; you become insolvent, enter liquidation, administration, or similar proceedings; you convene meetings or arrangements with creditors.

10. Limitation of Liability

Our total liability is limited to the price paid for the Goods. We are not liable for: indirect, special, or consequential loss; loss of profit, business, data, goodwill, or third-party claims; delay or failure caused by circumstances beyond our control; losses due to your breach of obligations; suitability or use of Goods for your purpose. Nothing excludes liability for death or personal injury caused by our negligence, or fraud.

11. Communications

All notices must be in writing and signed by an authorised party. Notices are deemed delivered: upon delivery by courier; upon successful fax or email transmission; five business days after posting by regular mail; or ten business days after airmail. Notices must be addressed to the most recently notified address or contact. All communications should be directed to sales@sterlingsep.com.

12. Data Protection

When providing Goods, we may process personal data of your employees. You are the data controller and we are the data processor under UK GDPR (as amended, extended, or replaced). We only process data as required to fulfil our obligations or as agreed, and do not retain personal data longer than necessary. We do not disclose data to third parties except as required for fulfilment, or by law. We maintain appropriate security measures as outlined in our Data Protection Policy (available on request). For any data queries or complaints, please contact sales@sterlingsep.com.

13. Force Majeure

Neither party is liable for failure or delay caused by circumstances beyond reasonable control, including industrial action, fire, flood, terrorism, war, or government intervention.

14. General

No waiver of any breach constitutes a waiver of any subsequent breach. If any term is held invalid or unenforceable, the remainder shall remain valid. This contract is governed by and construed according to the laws of England, with all disputes subject to the exclusive jurisdiction of the English courts.
